Hi John,

Attached is the payroll run for the drug labs. A08 is being funded by vacancy savings from Dookhan and some money from a hiring freeze earlier in the year, otherwise there wouldn't be any money for that since we've eliminated all OT in the Lab except for emergencies, including court time. Tan had applied for the retirement incentive last year but we weren't in a position to make the payout but we were right at the beginning of this year. Lleshi is included here even though she's on Coverdell. Please let me know if you have any additional questions. Thanks.

Grace
